ABOUT ME

I am a fresh graduate in Informatics from Universitas Amikom Yogyakarta with a strong passion for bridging technology and business. Possesses solid skills in research, data analysis, project planning, IT infrastructure management, and data-driven decision-making. A fast learner and proactive problem-solver who excels at transforming complex technical challenges into practical digital products. Highly interested in software engineering, data analysis, and IT support, I am ready to explore diverse roles to deliver real value to the company.

WORK EXPERIENCE

DINAS KOMUNIKASI DAN INFORMATIKA PROVINSI JAWA TENGAH Semarang, Indonesia
Software Developer Intern *August 2025 – October 2025*

- Developed an enterprise event management system using Laravel and Flutter to replace an abandoned legacy application, improving the organization and accessibility of event management processes.
- Engineered a responsive, mobile-ready web architecture with a multi-role administrative dashboard and redesigned UI/UX component hierarchy to support efficient system management across user roles.
- Digitized manual attendance and material distribution processes through integrated QR-based attendance and live material delivery features, enabling remote access and more streamlined event operations.

DARUSSALAM PRINTING & PUBLISHING Ponorogo, Indonesia
IT & System Administrator *July 2021 – May 2022*

- Managed and optimized the company's IT infrastructure, including hardware and network systems, while providing technical support to maintain seamless daily operations across production and administrative teams.
- Executed data recovery procedures for damaged storage devices and established structured backup protocols to improve data reliability and long-term security.
- Designed and implemented a centralized storage system for operational data, improving data accessibility and streamlining cross-departmental workflows.

UNIVERSITAS AMIKOM YOGYAKARTA Sleman, Indonesia
Teaching Assistant Graphic Design *March 2023 – January 2025*

- Facilitated hands-on practical sessions for 40+ undergraduate students, translating complex UI/UX principles, layout theory, and visual composition into structured learning modules.
- Evaluated student design projects using objective grading criteria, providing structured and iterative feedback to improve technical execution, problem-solving, and design consistency.
- Guided students in applying systematic design frameworks, including layout hierarchy, color theory, and visual composition, to develop accessible and consistent digital assets.

PROJECT EXPERIENCE

ESENSI – ENTERPRISE EVENT MANAGEMENT SYSTEM Intern Project
https://cs.saturnalia.jatengprov.go.id/

- Developed an internal enterprise event management system for Diskominfo Jawa Tengah using Laravel and Flutter, centralizing event operations and management across departments within a single platform.
- Designed a responsive, mobile-ready architecture with a **multi-role administrative dashboard**, streamlining workflows across different user roles.
- Digitized event operations through **QR-based attendance and live material distribution**, improving accessibility and operational efficiency.

SKIN CHECKER AI (Machine Learning) Final Project
https://huggingface.co/spaces/sayhaitome/CheckYourSkin

- Developed an AI-powered web application for automated facial skin type classification, categorizing images into dry, normal, and oily skin types using deep learning.
- Utilized the **MobileNetV2** architecture for model training, feature extraction, and image classification.
- Performed data preprocessing, model evaluation, and performance optimization to improve detection accuracy and reliability.

SALIWANG CATERING Campus Project
https://sedanghaidar.github.io/SaliwangCatering/

- Developed a client-facing website for a local catering business, translating business requirements into a functional digital presence.
- Designed and implemented responsive web interfaces to showcase catering services, products, and business information.
- Structured an accessible and user-friendly website to improve the business's digital presence and customer experience.

WANAJONGGOL PARK Campus Project
https://sedanghaidar.github.io/wanajonggolpark/

- Developed a web platform for a nature-based tourism and restaurant destination with an integrated reservation flow.
- Designed and implemented a responsive interface to showcase attractions, restaurant offerings, and destination information.
- Structured a simple and intuitive booking experience to help visitors access information and make reservations efficiently.

EDUCATION

Universitas Amikom Yogyakarta Sleman, Indonesia
S-1 Informatika / GPA: 3.82 *2022 – 2026*

PONDOK MODERN DARUSSALAM GONTOR Ponorogo, Indonesia
Average Grade: 86 *2017 – 2021*

ORGANIZATIONAL EXPERIENCE

HIPMI AMIKOM (YOUNG ENTREPRENEURS ASSOCIATION) Sleman, Indonesia
PDD Division Member *2024 – 2025*

- Led visual identity and digital promotional campaigns across social media platforms to strengthen the organization's branding and outreach.
- Translated cross-functional briefs and raw information into structured, engaging visual content for organizational activities and events.
- Designed and standardized publication materials while collaborating with multiple divisions to maintain consistent visual communication.

TALKSHOW WIRAUSAHA INOVATIF (National Seminar Committee) Sleman, Indonesia
Creative Coordinator *2024*

- Led the creative direction for a national seminar, producing audience-focused visual assets supporting the engagement of **300+ attendees**.
- Established a standardized design system covering visual hierarchy and color direction to maintain consistency across event platforms.
- Coordinated the production of promotional and on-site materials, ensuring timely execution and alignment with event objectives.

SKILLS

Software:

- **Data Analysis & Visualization** **:** Python, Google Colab, Kaggle Notebook, Microsoft Excel
- **Backend & Database** **:** Laravel, PHP, SQL, MySQL
- **Frontend & Mobile** **:** HTML/CSS, Flutter, Tailwind CSS
- **UIUX & Design** **:** Figma, Adobe Photoshop, Adobe Illustrator, CapCut, Canva
- **Productivity** **:** Microsoft Word, Microsoft PowerPoint, Microsoft Excel
- **Tool & Platform** **:** Git, Postman, VSCode, Google Colab, Ubuntu,

Technical Skills:

- **Data Analysis & Visualization :** Exploratory Data Analysis (EDA), Data Cleaning & Preprocessing, Data Visualization, Dashboard Building & Reporting, Product Analysis, Data Storytelling
- **Programming & Development :** Logic & Algorithms, Web Structure, SDLC, Software Testing
- **Design :** UIUX Design, Wireframing & Prototyping, Design System, User Journey Mapping

Soft Skills **:** Collaborative, Adaptable, Detail-Oriented, Problem-Solving, Effective Communication, Time Management, Business Process Understanding
Languages : Indonesian, English, Javanese, Arabic.

CERTIFICATION

Data Analyst for BNSP Certification Preparation – YEC.co.id — Indonesia
Certificate of Bootcamp — *2026*

Data Analyst - SmartPath — Indonesia
Certificate of Bootcamp — *2024*

InJourney Hospitality House – InJourney Destinations — Indonesia
Certificate of Completion — *2026*
