ABOUT ME

I am an Informatics graduate from Universitas Amikom Yogyakarta with a strong passion for bridging technology and business. Possess solid skills in software development, data analytics, research, and business development. A fast learner and proactive problem-solver who excels at transforming technical challenges and business needs into practical solutions. Highly interested in software engineering, data-driven decision-making, and business innovation, I am ready to explore diverse roles and contribute to both technological and business growth.

WORK EXPERIENCE

CIPTA RASA FARM Bogor, Indonesia
Business Developement *March 2026 – Present*

- Drove business expansion from inception to 5 operational outlets while managing 10 field staff structured into 2 teams per branch.
- Developed operational SOPs, business proposals, legal documents, and partnership templates to support operational standardization and strategic partnerships, including collaboration with UIN Syarif Hidayatullah.

DINAS KOMUNIKASI DAN INFORMATIKA PROVINSI JAWA TENGAH Semarang, Indonesia
Software Developer Intern *August 2025 – October 2025*

- Developed an event management system to replace manual administrative process using Laravel and Flutter by translating actual operational needs and project requirements into functional application features.
- Acted as a Quality Assurance (QA) Tester for the JNN application, conducting software testing to ensure system reliability and compliance with application standards.

UNIVERSITAS AMIKOM YOGYAKARTA Sleman, Indonesia
Teaching Assistant Graphic Design *March 2023 – January 2024*

- Facilitated hands-on practical sessions for 40+ undergraduate students, translating complex UI/UX principles, layout theory, and visual composition into structured learning modules.
- Guided students in applying systematic design frameworks, including layout hierarchy, color theory, and visual composition, to develop accessible and consistent digital assets.

DARUSSALAM PRINTING & PUBLISHING Ponorogo, Indonesia
IT & System Administrator *July 2021 – May 2022*

- Managed and optimized the company's IT infrastructure, including hardware and network systems, while providing technical support to maintain seamless daily operations across production and administrative teams.
- Performed regular hardware maintenance, configuration, and troubleshooting for PCs and network devices, ensuring high availability and minimizing operational downtime.

PROJECT EXPERIENCE

ESENSI – EVENT MANAGEMENT SYSTEM Intern Project
https://cs.saturnalia.jatengprov.go.id/

- Developed an internal event management system for Diskominfo Jawa Tengah using Laravel and Flutter, centralizing event operations and management across departments within a single platform.

SKIN CHECKER (Data Analyst and ML) Final Project
https://huggingface.co/spaces/sayhaitome/CheckYourSkin

- Collected, processed, and analyzed a dataset of facial skin images to identify patterns across dry, normal, and oily skin categories. Developed an AI-powered web application using MobileNetV2 for automated skin type classification and model evaluation.

EDUCATION

Universitas Amikom Yogyakarta Sleman, Indonesia
S-1 Informatika / GPA: 3.82 *2022 – 2026*

ORGANIZATIONAL EXPERIENCE

HIPMI AMIKOM (YOUNG ENTREPRENEURS ASSOCIATION) Sleman, Indonesia
PDD Division Member *2024 – 2025*

- Developed visual identities and digital promotional campaigns across social media platforms, translating organizational briefs into engaging visual content while collaborating with multiple divisions.

TALKSHOW WIRAUSAHA INOVATIF Sleman, Indonesia
Creative Coordinator *2024*

- Led the creative direction for a national seminar with 300+ attendees, producing audience-focused visual assets and establishing a standardized design system to maintain visual consistency across event platforms.
